

Hempasense Track

Control. Quality. Freedom.

With Hempasense Track you can enjoy an ideal application world.

It is a 24/7 dedicated, seamless assistant that measures and records environmental data which ensures a fully controlled and safe application environment

Hempasense Track

Hempasense Track is a smart and easy solution that keeps your application procedure on track.

Control.

- ✓ Track climatic conditions 24/7
- ✓ Log asset movement
- ✓ Access to all your projects at once (multi-sensors used) and in one place
- ✓ Ready to operate from -20°C up to +65°C

Quality.

- ✓ Minimise risk in paint application
- ✓ Easy one click access to quality reporting with accurate detailed professional reports
- ✓ Scalable solution software is continuously developed to ensure quality throughout the application process

Freedom.

- ✓ 24/7 access wherever you are (via MyHempel desktop & mobile app)
- ✓ Standalone system – battery powered (3 years with 15 min intervals)
- ✓ It works regardless of the paint system applied
